**Screening Exams:** Lung Cancer Screening - Chest CT without contrast for high-risk patients. For indications and eligibility, please see our website, mtbakerimaging.com/lung-cancer-screening/ or call our office at 360.647.2422

CT Ordering Guidelin	nes: A brief reference	
Indication	CT Order	
Suspected pulmonary nodule	CT chest without contrast	
Suspected pulmonary mass	CT chest with contrast	
Suspected adenopathy in chest	CT chest with contrast	
Possible Appendicitis	CT abdomen and pelvis with IV and Oral contrast (see notes 1 & 2 below)	
RLQ pain	CT abdomen and pelvis with IV and Oral contrast (see notes 1 & 2 below)	
LLQ Pain	CT abdomen and pelvis with IV and Oral contrast (see notes 1 & 2 below)	
Evaluation of GI tract abnormality (Including: appendicitis, diverticulitis, enteritis, colitis, IBD)	CT abdomen and pelvis with IV and Oral contrast (see notes 1 & 2 below)	
RUQ pain	CT abdomen and pelvis with IV and Oral contrast (see notes 1 & 2 below) Pelvis not absolutely necessary, but oftentimes helpful in evaluation of contiguous peritoneal and unsuspected GI tract/gynecologic disease processes.	
LUQ pain	CT abdomen and pelvis with IV and Oral contrast (see notes 1 & 2 below) Pelvis not absolutely necessary, but oftentimes helpful in evaluation of contiguous peritoneal and unsuspected GI tract/gynecologic disease processes.	
Flank Pain	CT abdomen and pelvis without contrast	
Painless Hematuria	CT IVP	
Evaluation of Indeterminate renal lesion (solid or cystic)	CT renal mass (CT abdomen with and without contrast)	
Evaluation of indeterminate liver lesion (solid or cystic)	CT liver (CT abdomen with and without contrast)	
Evaluation of indeterminate pancreatic lesion (solid or cystic)	CT pancreas (CT abdomen with and without contrast)	
Evaluation of suspected pancreatitis	CT abdomen and pelvis with IV and oral (water) contrast	

## Notes

1. Can be done without oral contrast in certain circumstances

## PREP INSTRUCTIONS FOR CONTRAST EXAMS

**ALL Contrast Exams:** NPO (Nothing by mouth) except for water 4 hours prior to exam. During 4 hour NPO period, please drink 8oz of water every hour. Current (within 45 days) creatinine/GFR required for patients with any of the following criteria: Over the age of 60, diabetic, hypertension, or history of renal insufficiency and/or heart failure.

**Abdomen & Pelvis Only:** Visit any of our locations to receive the oral prep kit and instructions. Preparation for this exam will require you to drink a contrast agent (Barium Sulfate) at periodic intervals before your exam can be performed; this will help visualize the small bowel and colon.

**Coronary CTA Only:** Whatcom County patients: Come to our 2930 Squalicum Parkway location for evaluation & additional instructions 1 to 2 days prior to exam. *Note to out of town patients — Arrive 90 minutes prior to exam for evaluation*.

PLEASE NOTE: WITHOUT THIS PREPARATION WE WILL BE UNABLE TO PROCEED WITH YOUR EXAM
